

Class Two

Summer Holiday Home Learning

Beach Project

As we live so close to the beach I thought it would be the perfect opportunity for you to put together a 'Beach Project'. This could be on one particular beach in Thanet such as, Ramsgate, Broadstairs or Margate. Or you could combine all three. Over the summer holiday I would like you to try and complete some of the activities below:-

What will you choose to do?

- Look at pictures of yourself or family members at the seaside. Are there any of someone swimming in the sea? Identify the different locations on a UK or world map.
 - Visit your local library (if you can!) or look online at information books about the seaside. Write a book review about your favourite one.
 - With an adult, use the web to research famous artists who use the beach for inspiration.
 - Make a miniature seashore garden using natural materials, such as pebbles, twigs, sand and shells.
 - Make a list of all the activities you could do at the beach. Survey your friends and family to identify the 'Top five seashore activities' and display the results in a pictogram or bar chart.
 - Create a collage of a seaside scene using magazine pages.
 - Share with your family any seaside tongue-twisters or riddles you know. For example, 'Anemones have no enemies, but noise annoys a noisy oyster.' Can you think of any more or write some of your own?
 - Make a word search with all the names of the objects you have found at the seaside. Ask your family and friends to have a go.
 - Make a 3D sea animal. You can use any material you like – perhaps papier mâché, fabric, plastic bottles, clay, play dough or Lego pieces?
 - Write a poem about the living things that make their home in a rock pool. An acrostic or shape poem would be fun!
 - Design, draw and paint a picture of a beach hut.
-

Don't forget...

- To read every day, even if it's just for 5 or 10 minutes or take up the Summer Reading Challenge.
- To practise your handwriting, remembering your cursive letter shapes.
- To practise your 'Tricky Word' spellings.
- To learn your numbers bonds to 20 and the 2, 3, 5 and 10 times table off by heart!
