

Week 5: New Topic – Beast Creator!

Tuesday – Thursday

Each day, feel free to choose one of these fun activities:

- In detail, sketch and label your own creature. Create a name for your creature and use it as the title of your sketch.
- Use dough, clay or recycled materials and create your own creature. What will you call it? What does it eat? Where does it live? What other interesting facts could you imagine?
- Sketch or paint the wings of a butterfly or dragonfly. If you can, try and recreate your artwork on a computer.
- Explore amazing facts of creatures on the internet. Remember BE SAFE and ask an adult. Here are some awesome websites for you to explore:

National Geographic Kids: <https://www.natgeokids.com/uk/>

Young People's Trust for the Environment Website: <https://ypte.org.uk/factsheets/minibeasts/what-is-a-minibeast#section>

The children's butterfly website: <https://www.kidsbutterfly.org/life-cycle>

Have fun! Don't forget, if you can, to take photos that could go on our school home learning gallery :D
