

Each week now, you will be set spellings from a Key Stage 3 spelling list for the different subjects.

This week the spellings come from the KS3 DT curriculum. (Minerals is in there because of the link to Food Technology.)

Use a page in your exercise book. Write down the heading **KS3 Art**. Over the next two days, Monday and Tuesday, you will create yourself a vocabulary book with these words. Write down the word (like a head word in a dictionary), then look up its definition in a dictionary (either online or a paper one) and write that next to the word.

On a Monday, you take the first 10 words; on Tuesday the next 10 words. Make sure you know the meaning of each word.

KS3 DT	
Set: 11 May 2020	Test: 18 May 2020
aesthetic	manufacture
brief	mineral
carbohydrate	nutrition
design	presentation
disassemble	protein
fibre	specification
hygiene	technology
ingredient	tension
knife/knives	textile
machine	vitamin

Extension:

1. Use each word in a sentence.
2. Can you find pictures/diagrams that show the meaning of the word and include them in your explanation.
